

## Citrix Installation on Windows 8

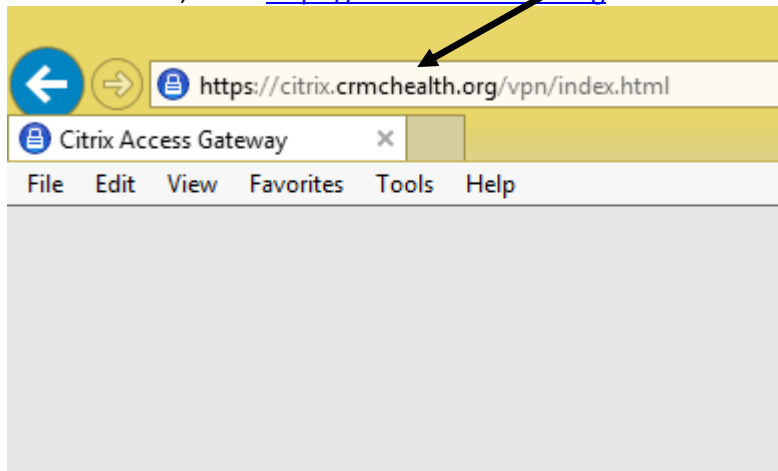

From the Start Page, hit the Windows key on your keyboard. This will get you to the desktop.

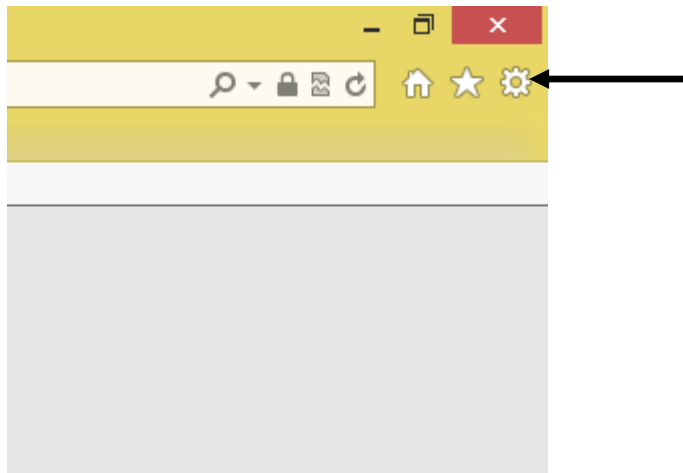

Open Internet Explorer.

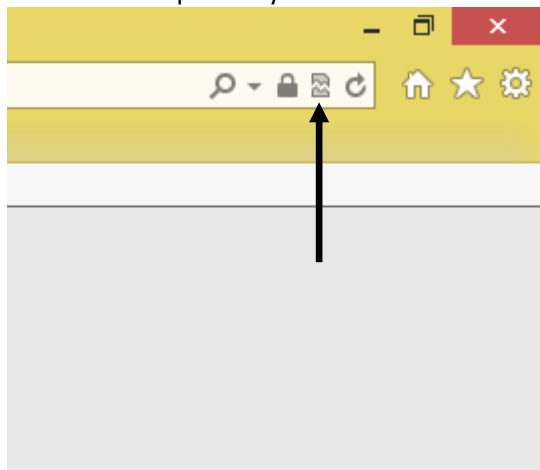

In the URL line, enter <https://citrix.crmchealth.org>. Hit Enter. The page will be blank. This is OK for now.

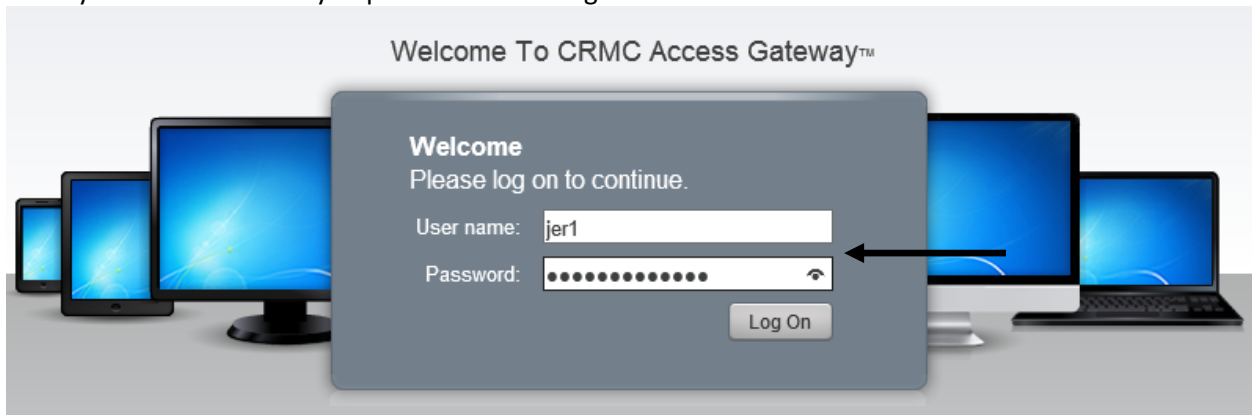

Click on the gear icon. Choose Internet Options from the menu. Click on the Security Tab. Click Trusted Sites. Click Sites. Click Add. Click OK. Click Close.

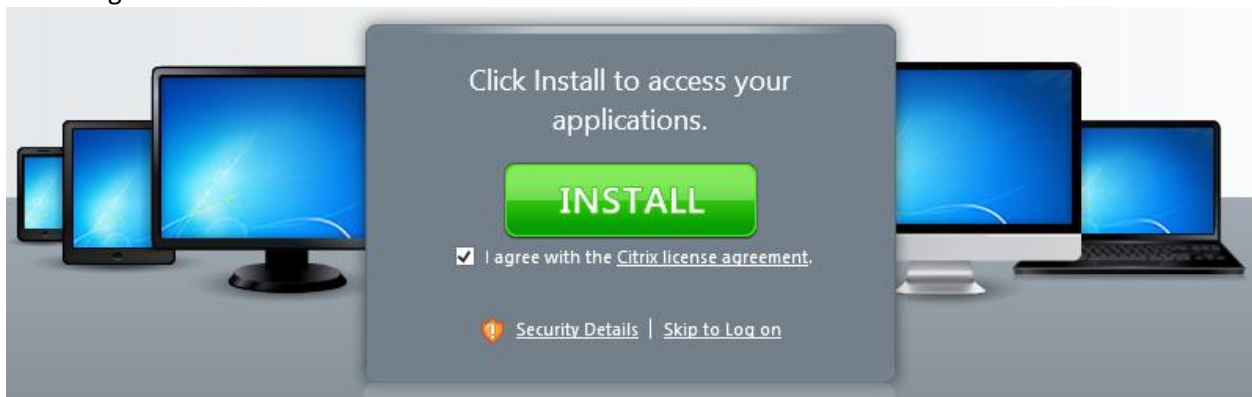

Click the Compatibility icon.

Enter your username and your password. Click Log On.

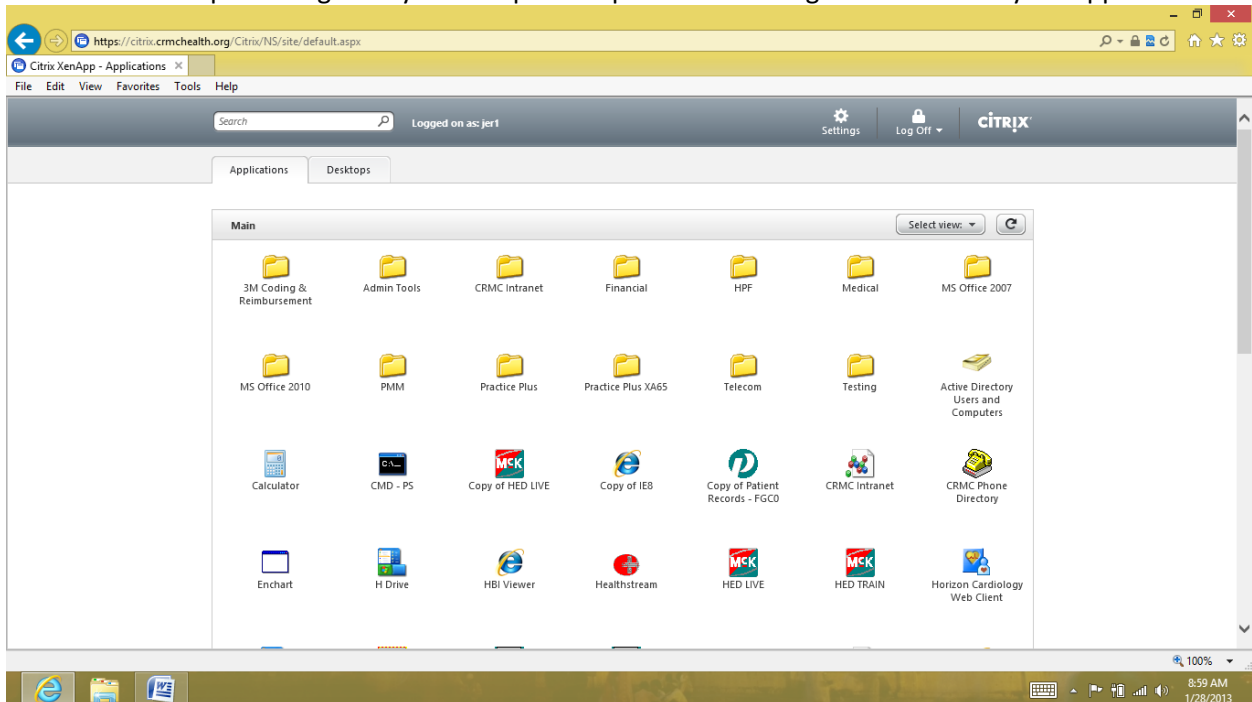

Click "I agree with...". Click INSTALL.

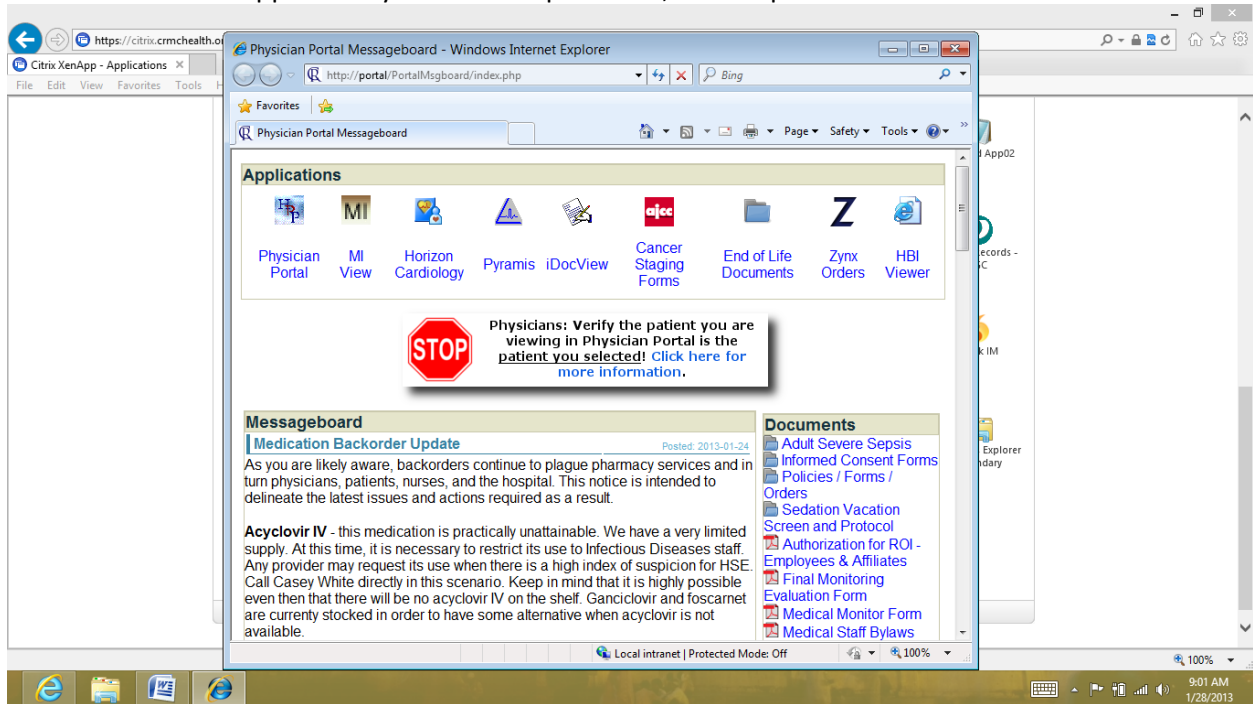

The Citrix Receiver will download. Once it's downloaded continue the install.

REBOOT the computer. Logon to your computer. Open Citrix and logon. You will see your applications.

Double click on the application you want to open. Here, I have opened Portal.

If you have any questions or concerns, please call the CRMC IS Department at 8888 or 800-747-0518.
