

Postgraduate Year One Residency

PROGRAM OVERVIEW

Cookeville Regional Medical Center (CRMC) offers a Postgraduate Year One (PGY1) Pharmacy Residency Program that will build clinical and leadership skills that are essential for pharmacists to efficiently and effectively operate in today's healthcare environment. The PGY1 Pharmacy Residency Program offered at CRMC is a 12 month, American Society of Health-System Pharmacists (ASHP) accredited program. The residency program was initiated in 2011 and is currently offering three positions. Intensive and varied experiences are offered in critical care, internal medicine, practice management, metabolic support, oncology, emergency medicine, ambulatory care, medication safety, anticoagulation, infectious disease, cardiology, informatics, and specialty pharmacy.

POSITION SUMMARY:

This position is responsible for pharmaceutical care of patients including all age groups (infants, pediatrics, adolescents, adults, and geriatrics). Applicants are also responsible for participating in pharmacy quality improvement activities, teaching pharmacotherapeutics, and community medication education classes. Prospective residents will use knowledge and critical judgment to make decisions concerning patient drug therapy. Candidates should demonstrate knowledge of the psychosocial needs, clinical assessment implications, and/or consequences of technology upon all age groups.

Applicants should possess the ability to work independently in clinical activities and in development of workflow processes and procedures.

Effective communication skills linking pharmacy, nursing service, and the medical staff is mandatory.

Training Site Type:	Hospital
Owner Affiliate:	Government-City
Model Type(s):	Acute Care
Tax Status:	Non-Profit
Professional Staff:	42
Non-Professional Staff:	59
Number of Medical Centers:	1
Total Beds:	289
